

■ Phase 1: Brainstorming & Idea Generation

Empathy Map Canvas

Date:	July 2, 2026
Team ID:	SWTID-2026-4823
Project Name:	BOOK STORE (BookNest)

Empathy Map Canvas

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviors and attitudes. It helps the team understand the user's perspective, goals, and challenges.

User Persona: Sarah (Avid Reader & College Student)

Empathy Quadrant	Customer Thoughts & Behaviors
SAYS	"I want to support local bookstore owners but I can't find their collections online." "Textbooks are extremely expensive new; I prefer buying verified second-hand copies."
THINKS	"Will my financial data be secure on this platform?" "How long will shipping take?" "I hope the description of the book's condition (New/Used) is accurate."
DOES	Searches multiple websites to compare book prices. Maintains a list of wanted books in notepad/wishlists. Checks online reviews and book recommendations on social media groups.
FEELS	Overwhelmed by massive commercial marketplaces filled with irrelevant ads. Excited when finding a hard-to-locate book. Relieved when checkout is straightforward and fast.
PAINS	High textbook prices. Fragmented inventory across local stores making search tedious. Slow shipping and unclear book conditions.
GAINS	Centralized search of multiple local store inventories. Affordable pre-owned books. Secure, quick checkout interface.
